Caregiver Checklists

for the family caring for Mom or Dad

01 Caregiver Daily Checklist

02 30 Questions to Ask Aging Parents

03 Finances & Documents Checklist

04 Caregiver Self-Care Checklist

Checklists are easier to share
than worries are.

How to Use These Checklists

Four pages. Print what you need, or type straight into the PDF.

1. **Caregiver Daily Checklist (page 3)**
   Print a week of copies and keep them with the medication chart. Whoever is on duty ticks what's done and writes one line for the next helper. At the end of the week you can see how things are going without a single phone call.

2. **30 Questions to Ask Aging Parents (page 4)**
   Don't cover everything at once. Pick one area per visit: health first, then daily life, money, home and wishes. Listen more than you talk, and write the answers down while you have them.

3. **Finances & Documents Checklist (page 5)**
   Find each paper and write down where it is kept. Never write passwords, PINs or account numbers on this page.

4. **Caregiver Self-Care Checklist (page 6)**
   A weekly check on you, because the person doing the caring counts too. Do it on Sunday evening, before the week starts again.

> **Share the load**
> Once a checklist exists, each sibling can take a section. Copy the jobs onto the "Who does what" page of the Medical Binder, or the Job Board in the Shared Family Care Sheet.

> **About these checklists**
> General information only. Every family's situation is different, so check with the professionals involved in your parent's care.
